SUPERIOR CONSTRUCTION

1 Laminated Sidewalls, Rear Wall, Slide-Outs & Floor

- Solid Wall Construction
- Block Foam Insulated
- Superior Durability

2 Azdel Composite Sidewalls, Rear Wall, Front Wall, & Slide-Outs

- Replaces Plywood Used by Competing Brands
- Water Resistant Material
- Helps Prevent Rot, Mold, & Delamination
- Increases Insulation Values

3 Superior Aluminum Structure

- Welded Aluminum Framing Around All Openings
- Lighter Weight Than Competing Brands – True Half-Ton Towable
- Stronger & Better Constructed

4 Fully Walkable Roof w/ Industry Best PVC Membrane

- 16" On-Center Trusses, Plywood Decking & Residential Insulation
- 15 Year Warranty On PVC Membrane
- No Treatments Required On PVC – Saves Time & Money

5 Extended Season Ready

- 2" Aluminum Framed Floor with Block Foam Insulation
- Underbelly Sealed and Insulated with Radiant Foil
- Forced Heat to Underbelly Through Dedicated Duct
- Heated Holding Tanks with 12V Heating Pads

DETAILS

PRE-DELIVERY INSPECTION FACILITY

20,000 square feet of quality assurance. The bare essentials for a premium product. This state-of-the-art facility gives immediate daily feedback to production for quality assurance in every unit built.

www.ForestRiverBuyLocal.com

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)** - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty black and gray tanks for more cargo capacity.

**Estimated Average based on standard build optional equipment. ** Estimated average based on standard build optional equipment. Values estimated at time of printing.*

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Forest River, Inc., reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Forest River, Inc., dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision.
